

A Survey of Transport Security Protocols

draft-taps-transport-security-03

Tommy Pauly (tpauly@apple.com)

Colin Perkins (csp@csp Perkins.org)

Kyle Rose (krose@krose.org)

Christopher A. Wood (cawood@apple.com)

TAPS

IETF 103, November 2018, Bangkok

Updates Since -02

Clarified enumeration of security feature set

Added Early Data optional feature

Protocol-specific updates, e.g., QUIC and Stream0

Editorial cleanup

Outstanding Issues

Unclear language around application and transport dependency for optional features

<https://github.com/mami-project/draft-pauly-transport-security/pull/46>

Privacy (intentionally) omitted — is it required?

<https://github.com/mami-project/draft-pauly-transport-security/pull/45>

Extra protocol details not yet removed

Next Steps

SecDir review
